PROFILE SUMMARY

CSE undergraduate with hands-on experience in **MERN Stack, REST APIs, and Machine Learning**. Skilled in building scalable web apps, optimizing databases, and implementing secure authentication. Solved **300+ DSA problems** across LeetCode, CodeChef, and GeeksforGeeks. Collaborative team player with 2–3 member project experience.

EDUCATION

Bachelor of Engineering, Computer Science

Karpagam College of Engineering, Coimbatore

2023 – 2027

CGPA: 8.53 / 10.0

Relevant Coursework: Data Structures & Algorithms, Database Management Systems, Operating Systems, Machine Learning.

TECHNICAL SKILLS

Programming	Python, C, C++, Java, JavaScript
Web & Backend	React.js, Node.js, Express.js, REST APIs, JWT, Axios
Databases	MongoDB, Mongoose, MySQL, SQL
Machine Learning	Pandas, NumPy, Scikit-Learn, Matplotlib
Tools	Docker, Git, GitHub, Postman, CI/CD (GitHub Actions)
Concepts	OOP, Data Structures, Algorithms

PROJECTS

AI Crop Yield Prediction Model (Team of 3) GitHub

Tech: Python, Pandas, NumPy, Scikit-Learn, Random Forest

- Built a **Random Forest ML model** predicting crop yield with **92% accuracy** on a dataset of 50,000+ records.
- Applied **feature engineering, preprocessing, and hyperparameter tuning**, reducing prediction error by 15%.
- Automated **visual insights** using heatmaps and trend graphs, decreasing manual data analysis time by 40%.

Ride Share Application (Team of 2) GitHub

Tech: MERN Stack, JWT, Axios, REST APIs

- Developed a **real-time ride matching platform** with dynamic filters for routes and dates also with Admin DashBoard.
- Implemented secure **authentication and role-based access control** using JWT for user accounts.
- Optimized backend with modular controllers and **efficient queries**, reducing API response latency.

Transport Rental System (Individual) GitHub

Tech: MERN Stack, Mongoose, REST APIs

- Built a **full-stack vehicle rental platform** with dashboards, bookings, complaint management, and vehicle-type filters.
- Implemented **authentication, CRUD operations, and form validation** with 99% error-free transactions.
- Improved database performance using **indexing and optimized queries**, reducing query execution time by 25%.

CERTIFICATIONS & ACHIEVEMENTS

- MERN Stack Intern** at Techvolt Software Solutions Pvt Ltd, Coimbatore (Online); developed 5+ production-ready REST APIs and implemented secure authentication with React frontend integration.
- Solved **300+ DSA problems** on [LeetCode](#), [CodeChef](#), and [GeeksforGeeks](#).
- Verified skills in React, Node.js, and JavaScript on HackerRank with 85%+ test scores.
- Coursera: React Basics and Node.js Backend Development — Completed **40+ hours** with **certificate score: 95%**, developed 2 functional web applications.
- GeeksforGeeks: C++ Basics to Advanced — Completed by covering OOP, STL, and algorithms with hands-on practice.
