## Objective

Aspiring Full Stack Developer with a strong foundation in MERN technologies and API engineering. I enjoy turning complex problems into simple, efficient solutions and building applications that feel intuitive for users. I am looking for an opportunity where I can contribute real value through clean code, consistent learning, and a mindset focused on impact rather than output.

## Education

- **B.E. Computer Science Engineering**, KCE Coimbatore (2023–2027) – CGPA: **8.4**
- **HSC (Bio-Maths)**, Vailankanni Matric Higher Secondary School (2022–23) – **95%**

## Technical Skills

- **Programming Languages:** C, C++, Java
- **Web Development:** HTML, CSS, JavaScript, React.js, Node.js, Express.js, REST API Development
- **Databases:** MongoDB, MySQL
- **Machine Learning:** Pandas, NumPy, Scikit-Learn
- **Tools:** Git, GitHub, VS Code, Postman

## Certifications

- MERN Stack Internship – Techvolt Pvt. Ltd.
- NPTEL: Soft Skills – IIT Kharagpur
- NPTEL: Introduction to Industry 4.0 and Industrial Internet of Things (IIoT)
- Coursera: React Basics
- HackerRank: CSS, JavaScript (Basic Intermediate), React, Node.js, Frontend Developer (React)
- GeeksforGeeks: Mastering C++ Programming
- AWS Academy Graduate – Microservices and CI/CD Pipeline Builder

## Projects

**AI Crop Yield Prediction and Plant Disease Detection** GitHub: [Project Link](#)

- Developed a Random Forest model achieving **92% accuracy** using 500+ crop data points.
- Performed feature engineering, preprocessing, and correlation analysis to optimize model performance.
- Implemented a prototype tool for early disease detection to reduce potential crop yield loss.

**KCE Store – Campus Document System (MERN)** GitHub: [Project Link](#)

- Built a MERN stack platform to streamline document/Xerox requests for students.
- Integrated secure file uploads and real-time order tracking features.

**JK Hunger Hub – Full Stack Food Ordering App (MERN)** GitHub: [Project Link](#)

- Developed a complete food ordering system with authentication, cart management, and order tracking.
- Integrated REST APIs and optimized MongoDB queries to improve performance and scalability.
